

## Introduction to Managing Money Unit

One of the units you will be doing on your course is Managing Money.

Identify as many things as you can that you love to spend money on.

Identify as many things as you can that you hate spending money on.

Some things that we spend our money on are essential, we need them and we can't do without them, like food. Other things are non-essential. We want them, but we could do without them, like DVDs.

We all have different opinions at to what's essential and what's not but it's important to understand the difference if we are going to be better at looking after our money, (known as budgeting)

Write at least 100 words stating your opinion as to what is essential and what is not.

Well done! We are looking forward to seeing you in September!
