Welcome Page

“Great haircutting skills are fundamental to your success as a barber – it really is what a barber is all about! Get these basic cuts right and you will have the foundation for a fantastic barbering career”

Garry Spencer - Great British Barbers Bash

Danny Robinson welcomes you to the Barbering Industry:

Barbering Kit and Salon Uniform

A professional appearance is essential to success. Students will have to wear full salon uniform when working in salons at all times. For female students, it's black tunic and trousers, with a full black shoe. For gents it's a black tunic and trousers, with black trousers no jeans, and a full black shoe no trainers with any logos. Your Barbering kit will consist of everything you need for the Barbering Course , and you will be working with the best brands Andis and Wahl Clippers.

The Origins Of Barbering

Interest in male grooming continues to increase, as can be seen from the number of hair and skin care products now available specifically for men.

Many barbers shops now provide an important retail service for men seeking grooming and other male orientated products.

The Origins of Barbering

Interest in male grooming continues to increase, as can be seen from the number of hair and skin care products now available specifically for men.

Many barbers shops now provide an important retail service for men seeking grooming and other male orientated products.

The Origins of Barbering

Today the barber must continue to be highly skilled and creative in most aspects of hairdressing if they are to meet the needs of their clients and create the varied range of styles that are required.

As will become evident through the course, modern men's hairdressing is not just about a 'dry cut' or 'short back and sides'.

Be Prepared, for a Positive Future

Commitment : Attendance and punctuality in all classes, making sure you bring your kit and uniform to every salon session. Submit all course work and assignments on completions dates to ensure progress on your course.

Collaboration : Working together in pairs, completing group work, class discussions, working with all students in your class.

Resilience : Trying your hardest at all times, even when things have not gone right you do not give up you keep going, and try again.

Confidence : This will come with practice, especially in cutting, the more you do the more confidence you get, and this will start to show in your work that you will carry out. The key to confidence is you always work and keep going.

A Confident Barber is a Successful Barber

Be Prepared, Be Compliant

Please click on the link below to complete the British Master Barbers Online Certificate – this will give a great start to your Barbering Career.

<https://www.britishmasterbarbers.com/health-safety-course>

When completed please email to emma.gavan@burycollege.ac.uk

Be Ready, Be Creative and Enjoy

Please write the difference between a classic barber and a traditional barber - including clients you would attract, salon image, barbers image, haircuts that will reflect the BARBERS IMAGE (please include images for both)

Also think about the range of styling and finishing techniques – the different products that would be used in the salon.

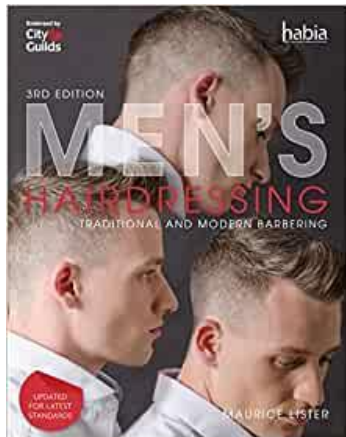

Please email to emma.gavan@burycollege.ac.uk
